TERZANI
LA LUCE PENSATA

Name
Abacus
large pendant light

Materials
brass | white glass

CE ENEC CB

Finishes | Code

white canopy | brass
0V01SE8BP1F

satin brass canopy | brass
0V01SM3BP1F

Body | 15 spheres

Light source
220-240V ~ 50/60Hz

 Built in replaceable led module
10,8W 1620 lm 3000K

dimnable options

 0/1-10V
PWM
100kΩ
PUSH
DALI
0-10V

Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
