**TERZANI**  
LA LUCE PENSATA

## Name

Abacus  
small linear multi light pendant

## Materials

brass | white glass

CE ENEC CB

## Finishes | Code

white canopy | brass  
0V06SE8BR2B

painted brass canopy | brass  
0V06SP4BR2B

## Body | 3x5 - 3x10 spheres

## Light source

220-240V ~ 50/60Hz

Built in replaceable led module  
3 x 3,6W  
3 x 7,2W  
4860 lm 3000K

### dimmable options

0/1-10V  
PWM  
100kΩ  
PUSH  
DALI  
0-10V

## Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
