TERZANI

Name

Abacus
large linear multi light pendant

Body | 7x5 - 8x10 spheres

Materials

brass | white glass

CE ENEC CB

Finishes | Code

white canopy | brass
0V15SE8BR4D

painted brass canopy | brass
0V15SM3BR4D

Light source

220-240V ~ 50/60Hz

Built in replaceable led module

7 x 3,6W
8 x 7,2W
12420 lm 3000K

dimnable options

0/1-10V
PWM
100kΩ
PUSH
DALI
0-10V

Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
