**TERZANI**

**Name**  
Abacus  
medium pendant light

**Materials**  
brass | white glass

## Finishes | Code

white canopy | brass  
0V01SE8BP1A

painted brass canopy | brass  
0V01SM3BP1A

**Body | 10 spheres**

## Light source

**120V ~ 50/60Hz**

 Built in Replaceable LED Module  
7.2W  
1080 lm 3000K

## dimnable options

 0-10V  
PWM

## Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
