**TERZANI**

## Name

Abacus  
3 medium round multi light pendant

## Materials

brass | white glass

## Finishes | Code

white canopy | brass  
0V03SE8BP1V

painting brass canopy | brass  
0V03SM3BP1V

## Body | 3x10 spheres

## Light source

120V ~ 50/60Hz

 Built in Replaceable LED Module  
3 x 7.2W  
3240 lm 3000K

### dimable options

 IGBT  
TRIAC

## Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
