TERZANI

Name

Abacus

3 large round multi light pendant

Materials

brass | white glass

Finishes | Code

white canopy | brass

0V03SE8BP2B

painting brass canopy | brass

0V03SM3BP2B

Body | 3x15 spheres

Light source

120V ~ 50/60Hz

 Built in Replaceable LED Module
3 x 10.8W
4860 lm 3000K

dimmbale options

 IGBT
TRIAC

Canopy

Used for centuries as a tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus is made of a custom set of round, hand-blown opal glass that emits a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as in a commercial space, and its almost infinite configurations ensure you always find the right solution.
