Product Name
Abacus
small pendant light

Materials
brass | satin white glass

Finishes | Code

white disc | brass
0V01S E8 B 15 KK

Body | 5 spheres

NO DRIVER INCLUDED

Light source

12V ~ 50/60Hz

Built in Replaceable LED Module
3,6W
540 lm 3000K

dimnable drivers available

0/1-10V
PWM
10-100K Ω
PUSH
DALI system

Disc | white

Used for centuries as the tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus contains a custom set of round, hand-blown opal glass which emit a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as a commercial space, and its almost infinite configurations makes sure you always come up with the right solution.
